

FaxPulse Business Intelligence

The ultimate add-on for optimized RightFax performance

Created exclusively for RightFax, FaxPulse BI allows system administrators to analyze fax volume, system health, and usage trends in perpetuity, providing the framework for smart system maintenance, optimized performance, and business planning.

With FaxPulse BI, system administrators can:

- Prevent potential errors and bottlenecks to meet SLAs with near real-time metrics across the all-new Tactical dashboard for proactive system management
- Identify failure reasons and chronic system overloads with perpetual historical data to isolate the root causes of fax failures and peak-time inefficiencies

More unique features and benefits:

- All new Tactical dashboard with improved usability
- Easy to use data retrieval and extensive export features
- Data perpetuity and historical archiving for lifetime of system
- Data bookmarks for easily replicable reporting
- Portability and compatibility with most environments and RightFax versions

- Replace faulty fax numbers and reclaim unused DIDs for optimized database management with unique data retrieval tools available on the dashboard
- Analyze fax trends for capacity and architecture planning with critical historical metrics, smart reporting features, and unlimited usage data storage

Smart data at your fingertips.

Maximizing the performance of your RightFax system requires closely monitoring key performance indicators, yet it can be impossible to gain valuable insights without a centralized platform to gather, aggregate, and display this data in a strategic manner.

With the extensive features listed above, FaxPulse BI helps system administrators make data-driven decisions on key business strategies, including traffic scheduling, system maintenance, and capacity planning.

This ability to apply forward-thinking strategies to your fax infrastructure and prevent costly system errors makes FaxPulse BI is an integral part of any RightFax tool kit.

FaxPulse does monitoring, error detection, and business intelligence for you, making it easy to monitor and manage your RightFax system with less workload and resources. Speak with a representative to learn more of how FaxPulse helps organizations reduce cost of ownership and improve system performance for any sized system.
