

# What's new in 2023

All-new dashboards, web interface, data saving features, and more.

## FaxPulse Business Intelligence

## 2023 Updates for FaxPulse BI:

#### All new Tactical Dashboard

Access our new full-system monitoring dashboard with near real-time data and analytics. With customizable visualizations, the **Tactical Dashboard** gives administrators can get a quick view of all system metrics in one window.

#### Updated Annual Dashboard

Process long-term fax system metrics faster and more reliably with our upgraded **Annual Dashboard**. With significantly improved loading speeds and easy navigation, administrators can analyze system growth and capacity all in one place.

FaxPulse Monitoring & Alerting

### 2023 Updates for FaxPulse MA:

#### New Web-based Configurator and Viewer

View and edit your custom metrics and thresholds from any device with our all-new HTML platform. With no license limits on users, administrators can collaborate and resolve issues more easily than before.

#### New Monitors for MA

Increase your detection measures with three all-new monitors: the **File Route Error Monitor**; **File Age Monitor**; and **File Count Monitor**.

#### All new Alert Groups and Scheduling

Improve your responsiveness with the new **Alert Groups** feature, allowing you to set specific emails or groups for individual alerts. Also, with the **Alert Scheduling** feature, organizations without 24/7 fax processing can set limits on notifications during non-business hours.

FaxPulse does monitoring, error detection, and business intelligence for you, making it easy to monitor and manage your RightFax system with less workload and resources. Speak with a representative to learn more of how FaxPulse helps organizations reduce cost of ownership and improve system performance for any sized system.
